## Processing of livestock waste for the production of biomethane to be used in agricultural vehicles and biofertilizers

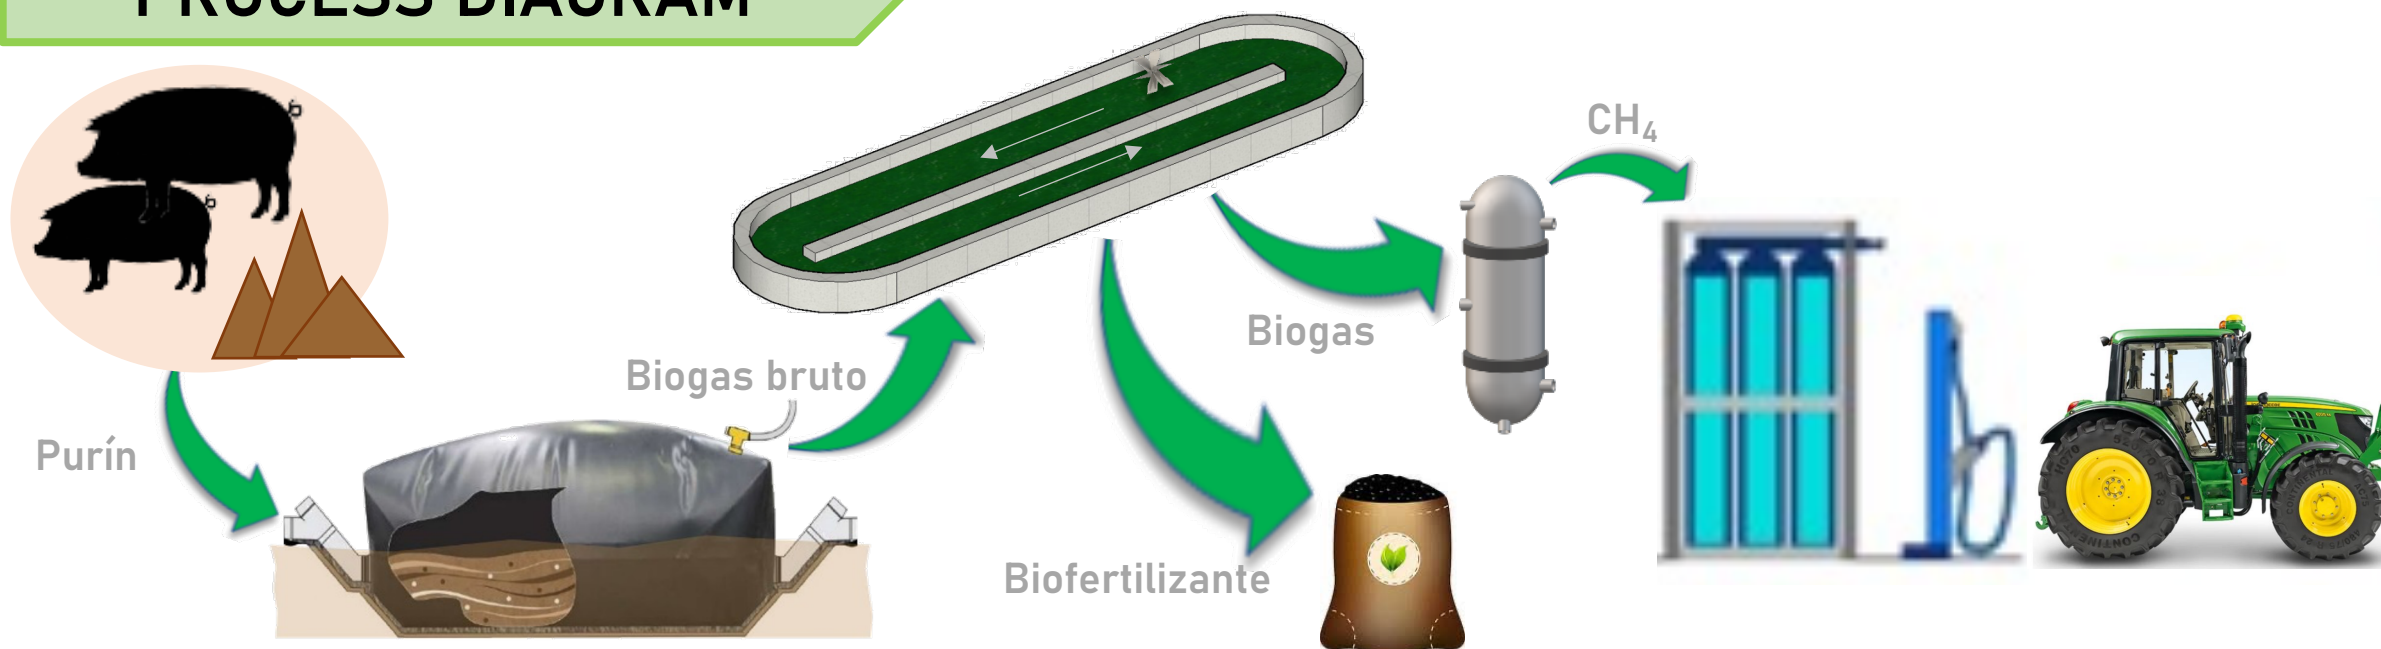

30 months

Budget: 2,291 M €

55 % funding by the European Commission

### PROCESS DIAGRAM

### EXPECTED RESULTS

#### 1. Biodigester

3,450 pigs  
4.7 t manure/day

#### 2. Upgrading biogas

80 m<sup>3</sup> biogas/day  
7 t CH<sub>4</sub>/year

#### 3. Supply and logistics

Biomethane 250 bar  
113 L/day fuel

#### 4. Biofertilizing

2,100 t/year  
biofertilizing

730 tCO<sub>2</sub>/year avoided
